

This guide shows how to connect to Lawson Lundell's remote system. There is a one-time software installation that will need to be completed.

1. Using Chrome, navigate to: <https://mypc.lawsonconnect.com>
2. Type in your **Username** and **Password**.
3. Type in the **Captcha** and click **Log In**.

4. You will be prompted to enter the *six-digit* code passcode from your DUO app.

ONE TIME ONLY INSTALL

The first time you log in to the portal, you will be prompted to install the *Secure Endpoint Manager*.

- (a) Click **Install**.

Secure Endpoint Manager

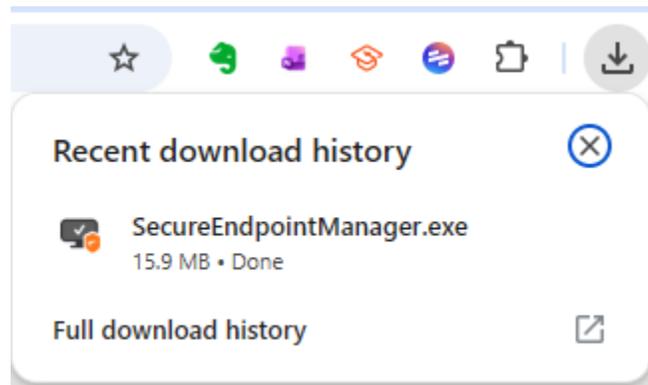

Click Install to access resource on the corporate network. This process will set up components on your computer used to access the corporate network and ensure that they are kept up-to-date on this computer. Clicking Log out will end your session.

Install Log out

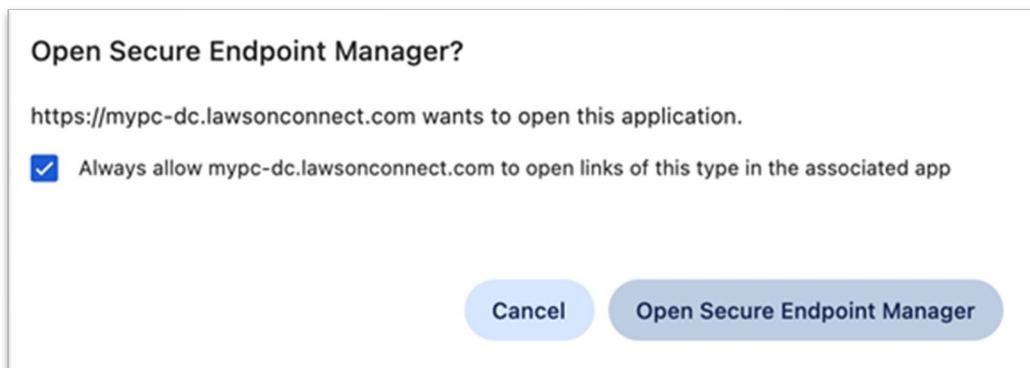

Important: Your personal firewall may ask you to grant permission to this program to access the internet. You must "Unblock" or "permit" this request for the installation to succeed.

If you have not accepted the "Secure Endpoint Manager" prompt and landed on this page, please cancel all prompts and refresh/reload the current page to start over.

- (b) Click the **Download** icon and click to run the **Secure Endpoint Manager** program.

5. With the Secure Endpoint Manager installed, logging in to the portal, click **Always allow...**
6. Click **Open Secure Endpoint Manager**.

7. Click **My Office Computer** and login to your office computer using your ID and password, you will need to approve the login via DUO.

To access a resource, click its name from the list below.

 My Office Computer Log into your office workstation
 My Office Computer - Single Monitor Log into your office workstation in a browser based session
 My Office Computer - Wide Monitor Log into your office workstation with wide monitor support
